Van Specification Options

Specifications subject to change and are designed to adhere to typical requirements. Check your state or community's specific requirements.

Safety packages available with no smoking signs, fire extinguisher, triangular-flare kit, first-aid kit, back-up alarms and HazMat compliant placards.

Two flood lights with rear switch for night deliveries.

Red centerline with "Clean" and "Dirty" signs on sidewalls to assist in meeting JCAHO guidelines.

Diamond plate flooring provides a secure and easily cleaned interior surface.

Custom decal installation provides a professional appearance and economical transit advertising.

Aluminum bottle holders for secure storage of G or H oxygen bottles allows for safer transportation.

Aluminum slats throughout for easy cleaning and sidewall protection.

Cargo track and straps for securing beds, wheel-chairs and other equipment to sidewall preventing damage.

Two or four bedrail brackets mounted on interior to avoid clutter and damage.

Horizontal aluminum oxygen bottleracks for 12 E-bottles with latching door allows for easy storage and quick access (racks of other sizes available, too).

Custom built aluminum shelving units with dividers provide protected and organized storage of small medical supplies.

Bottle racks and shelving units bolted to front bulkhead leaving cargo area open.
